

Electronics Customized Laser Cutting Parts Automotive

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Lead Time: 7-15 Days
- Package: Carton, Wooden Case, Pallet, Etc.
- Surface Treatment: Polishing, Zinc Plating, Anodizing, Etc.
- Color: Customized
- Processing Method: Laser Cutting
- Shape: Customized
- Thickness: 0.5mm-20mm
- Application: Machinery, Automotive, Electronics, Etc.
- Highlight: **Automotive Laser Cutting Parts,
Electronics Laser Cutting Parts**

Product Description

Product Description:

Laser Cutting Parts is a kind of precision cutting parts, which is usually made of metal materials such as stainless steel, aluminum, brass, copper, etc. The process of laser cutting parts is a high-precision cutting method that uses laser beams to cut the target material into the desired shape and size. The laser cutting elements can have various surface treatments such as polishing, zinc plating, anodizing, etc. to meet different application requirements. With the advanced laser cutting machines and experienced operators, the lead time can be 7-15 days, and the package can be carton, wooden case, pallet, etc. to guarantee the safety and accuracy of the laser cut parts. In short, laser cutting parts is a perfect solution for various precision cutting needs.

Features:

Product Name: Laser Cutting Parts

Surface Treatment: Polishing, Zinc Plating, Anodizing, Etc.

Material: Stainless Steel, Aluminum, Brass, Copper, Etc.

Size: Customized

Shape: Customized

Application: Machinery, Automotive, Electronics, Etc.

Keywords: Laser Cutting Components, Laser Cut Elements, Laser Cut Elements

Technical Parameters:

Features	Specifications
Tolerance	±0.1mm
Lead Time	7-15 Days
Shape	Customized
Thickness	0.5mm-20mm
Surface Treatment	Polishing, Zinc Plating, Anodizing, Etc.
MOQ	1 Piece
Application	Machinery, Automotive, Electronics, Etc.
Size	Customized
Package	Carton, Wooden Case, Pallet, Etc.
Processing Method	Laser Cutting

Applications:

Ywy laser cut parts are widely used in machinery, automotive, electronics, and many other industries. The thickness of each part can range from 0.5mm to 20mm, and the size can be customized according to customer needs. These parts can be packaged in cartons, wooden cases, and pallets. The MOQ is 1 piece. Ywy has become known for its quality laser cut elements and laser cutting pieces. With its brand name and model number, Ywy111, customers can trust the quality of the parts that they receive.

Customization:

Laser Cutting Components are custom components that are created through laser cutting. YWY offers **Laser Cut Components** that are perfect for a variety of applications, including machinery, automotive, and electronics. Our **Laser Cutting Sections** are available in a variety of sizes and thicknesses, ranging from 0.5mm to 20mm. YWY's **Custom Laser Cutting Parts** are available with a minimum order quantity of one piece. All of YWY's products are of high quality and come with the brand name YWY, model number YWY111, and a place of origin of Guangdong, Huizhou.

Support and Services:

We provide technical support and service for Laser Cutting Parts. Our customer service team is available 24/7 to answer any questions you have regarding our products and services. We provide detailed documentation and tutorials for our products, as well as a forum for customers to ask questions and get answers from experienced users. With our experienced engineers and technicians, we also offer on-site installation and maintenance services. We also offer remote technical support for our customers who are unable to visit our service center.
