

Aluminum Zinc Die Casting Molds Anodizing Polishing

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Size: Customized
- Material: Aluminum, Zinc, Magnesium, Copper, Etc.
- Package: Wooden Case/Pallet
- Weight: 0.1-50kg
- Pressure: 0-500T
- Design: 3D/2D Drawing
- Payment: T/T, L/C, PayPal, Etc.
- Surface Finish: Polishing, Anodizing, Plating, Painting, Etc.
- Highlight: **Zinc Die Casting Molds,**
Aluminum Die Casting Molds

Product Description

Product Description:

Die Casting Components are an effective and reliable way to produce components with precision and intricate details. Our die casting services provide a variety of solutions for a range of industries, including automotive, electronics, industrial, etc. We specialize in gravity castings, die casting molds and magnesium alloy castings. Our products range from 0.1 to 50kg in weight, and various payment terms such as T/T, L/C, PayPal, etc. are accepted. We can ship by sea, air or express. Our services also include die casting, CNC machining, etc. to meet your exact needs.

Features:

Product Name : Die Casting Components

Application: Automotive, Electronics, Industrial, Etc.

Processing: Die Casting, CNC Machining, Low-pressure Castings, Zinc Alloy Castings, Metal Injection Moldings, Metal Spinnings, Etc.

Package: Wooden Case/Pallet

Lead Time: 7-15 Days

Shipping: By Sea/Air/Express

Technical Parameters:

Parameters	Description
Weight	0.1-50kg
Shipping	By Sea/Air/Express
Application	Automotive, Electronics, Industrial, Etc.
Tolerance	±0.01mm
Pressure	0-500T
Mold Life	50,000-1,000,000 Shots
Payment	T/T, L/C, PayPal, Etc.
Surface Finish	Polishing, Anodizing, Plating, Painting, Etc.
Lead Time	7-15 Days
Package	Wooden Case/Pallet
Casting Type	Sand Castings, Zinc Alloy Castings, Aluminum Alloy Castings

Applications:

ywy Die Casting Components are the ideal solution for various industrial needs. These components are crafted using high-grade Aluminum, Zinc, Magnesium, Copper, and other metals to provide a perfect fit for each application. With precision tolerances of ±0.01mm, and a pressure range of 0-500T, these components are designed to deliver reliable performance in the most demanding environments. ywy Die Casting Components can be customised to meet individual requirements, and are available in a range of weights from 0.1-50kg. Our Metal Injection Moldings and Zinc Alloy Castings are also available to guarantee the highest quality and maximum durability.

Whether you need short-run or high-volume production, ywy Die Casting Components are the perfect choice for your project. Our components are available in a range of packages, including wooden cases and pallets, and are suitable for many industries, from automotive, aerospace and medical to consumer electronics and marine. With a brand name like ywy, you can be sure that you will receive a product of the highest quality, manufactured with the utmost care.

Customization:

Die Casting Components - Customized Service

Ywy provides die casting molds and magnesium alloy castings with customized service. We have a wide range of products, including brand name **ywy**, with **model number ywy444**, originating from **Guangdong, Huizhou**. Lead time is 7-15 days, with a tolerance of ±0.01mm, and a design of 3D/2D drawing. We also offer a range of surface finishes such as polishing, anodizing, plating, and painting. Our pressure range is from 0-500T.

We specialize in customized services for die casting molds and magnesium alloy castings. We are committed to high quality products and excellent customer service.

Support and Services:

Technical Support and Services for Die Casting Components

We are committed to providing top-notch technical support and services for our die casting components. Our team of experienced technicians are available to ensure that your products are installed correctly and run smoothly. In addition, we provide ongoing troubleshooting and technical support to answer any questions you may have.

Our support team can help you with all aspects of your die casting components, including installation, operation, maintenance, and troubleshooting. We also provide detailed documentation and instructions, so you can easily install and operate your components. Our technicians are available to answer any questions you may have about our products.

We offer a variety of services to help you keep your die casting components running optimally. We can perform regular maintenance checks to make sure your components are in good working order. We can also provide diagnostic testing to identify any potential problems or areas of improvement. Additionally, we can provide spare parts and replacement components as needed.

We strive to provide the best technical support and services for our die casting components. Our team is highly trained and experienced in this field, and we are dedicated to providing the highest quality of service. If you have any questions or need assistance with your components, please do not hesitate to contact us.
